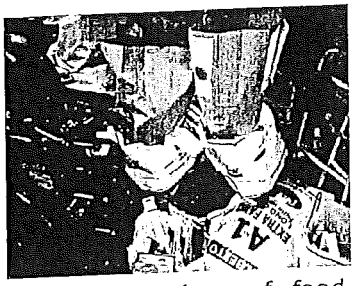
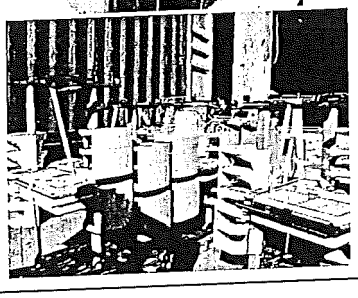
INTERNATIONAL UNDERSTANDING
2013 HUMANITARIAN MISSION TO JAMAICA



The Humanitarian Mission to Jamaica, June 9-15, 2013, generated great enthusiasm among our members and community partners. Donations of food, clothing, shoes, school supplies, medical supplies and equipment, were received via the "brown bag" project, through the generosity of our members, the Jamaica Nurses Association of Florida (JNAF), community partners, and sponsors. With the assistance of our Past President Sandra, the University of Miami donated various medical equipment valued at over $20, 000. Nurse Ann Marie Allen was instrumental in securing from Baptist Hospital (Homestead), endoscopy equipment valued at $11,750, which was given to May Pen Hospital. Ann Marie has been a major supporter since our first Humanitarian Mission.

Our shipping sponsors are SeaFreight Agencies and Supreme International.



2013 HUMANITARIAN MISSION PREPARATION

One very impactful project associated with the launching of our club's Humanitarian Mission to Jamaica was preparing and distributing "Brown Bags" in order to collect donations from the public. These bags proved to be perfect public relations tools for this project. Our club was able to identify two enthusiastic volunteers, Samantha and Kaydee Amador (seen below) to prepare the bags for distribution.

These two young ladies worked on their own time from home and prepared approximately 200 bags. They attached labels, a wish list and envelopes for monetary donations. They also went to supermarkets and requested additional bags to achieve their goal. Their hard work and dedication demonstrate their commitment to community service. Our club greatly benefited from their volunteerism, and they received many community service hours.

Thanks Sam and Kaydee!
