Homestead Hospital
BAPTIST HEALTH SOUTH FLORIDA

DATE	TIME	
9/21/12	1600	PALLIATIVE CARE: Follow up - Met with patient's son/surrogate [redacted] and patient's nephew with [redacted] RN translating at times to clarify technical terms and Blanca Chaves, Acsw.
	+	Son verbalizes understanding & acceptance that patient is in persistent coma 2° anoxia and will never "wake up"
	+	Son aware patient is being kept alive with life support (Ventilator/PEG)
① Full Code -		We discuss patient's recurrent aspirations & expectation of ultimate demise 2° sepsis at some point
② Continue efforts to have patient's father involved in EOL decision		GOALS OF CARE: ① Son reiterated his belief that family in Haiti would advise patient's husband & would not accept it if he chose to withdraw life support.
③ Will attempt phone conference to father in Haiti		② Son reiterated that patient's father in Haiti must be involved in decisions. He is not certain where her father's Visa request is.
		③ Son agreed to set up a phone conference (date/time) so we can include him in decision-making. —— Linda Bsp ACNP
